## Personal Profile

My research interests mainly focus on Euclidean harmonic analysis, which can be divided into the following aspects:

- (1) the property of Multilinear Fourier integral-type operators (Fourier integral operators, pseudo-differential operators, Fourier multipliers).
- (2) sparse bounds and sharp weighted bounds of the important operators.
- (3) multilinear extrapolation theory and multilinear dyadic representation theory.
- (4) the singular integral operators and maximal operators along the curve.
- (5) Boundedness extended to the weighted multi-exponents function spaces (weighted Besov spaces, weighted triebel spaces, weighted Hardy spaces).

## Education

**2025.9–now** Master student – China University of Mining and Technology (Beijing)  
Advisor: Prof. Xinfeng Wu

**2018.9–2022.6** Bachelor of Science – Southwest University of Science and Technology

## Profession services

Referee for "Journal of Function Spaces" and "AIMS Mathematics".

## Publications (\*–corresponding author of the paper)

1. Xi Cen\*, **The multilinear Littlewood-Paley square operators and their commutators on weighted Morrey spaces**, *Indian J. Pure Appl. Math.*, 2024, 55(2): 749-775.
2. Xi Cen\*, **Fractional maximal operators on weighted variable Lebesgue spaces over the spaces of homogeneous type**, *Anal.Math.Phys.* 14, 94 (2024).
3. Xi Cen\*, Qianjun He, Zichen Song, Zihan Wang, **New fractional type weights and the boundedness of some operators**, *Anal.Math.Phys.* 15, 26 (2025).

4. Xi Cen\*, **New variable weighted conditions for fractional maximal operators over spaces of homogeneous type**, (Under Review).
5. Xi Cen\*, Zichen Song, **The multilinear fractional sparse operator theory I: pointwise domination and weighted estimate**, (J. Geom. Anal., Submitted: Jan 07, 2025; Under Review: Feb 19, 2025.)
6. Xi Cen\* **The multilinear fractional sparse operator theory III:** , (will be finished)
7. Xi Cen\*, **The multilinear fractional sparse operator theory IV:** , (will be finished)

**August 17, 2025**
